Experience

2018 - Present (Remotely)

IT Gates Co., Cairo, Egypt | <http://www.it-gates.com>

Product Owner (Remotely)

- Lead strategic IT project development and Agile project management, ensuring alignment with business goals and stakeholder requirements.
- Define product vision and roadmap, conducting market research to guide direction and ensure competitive advantage.
- Manage Agile processes such as sprint planning, daily stand-ups, retrospectives, and sprint reviews to optimize team productivity and project outcomes.
- Serve as the primary interface between stakeholders and technical teams, translating business needs into actionable plans.
- Drive product quality and process improvements by implementing continuous feedback mechanisms and Agile best practices.

2018 - Fixed Term Contract (6 Months)

Wipro Co., Cairo, Egypt | <https://www.wipro.com/>

Project Manager

- Led the implementation of a comprehensive suite of solutions for Egypt Post, including the development of an E-commerce Marketplace, modernization of the existing Postal Portal, mobile channel enablement, and CRM integration using the SAP Hybris platform.
- Oversaw project scope validation, monitored performance, and maintained updates to the project plan.
- Managed the systems integration process between Wipro and external partners, ensuring timely communication of updated statistics to stakeholders.
- Facilitated requirement gathering sessions, regular status meetings with clients, and coordinated interactions between the offshore team and third-party entities.

2016 - 2018

Freelance Developer

Developed an ERP application tailored for point-of-sale systems across multiple branches using C# and SQL Server. The software effectively managed invoices, purchase orders, inventory movements, customer statements, balance sheets, and more.

Additionally, engaged in web development projects using WordPress, enhancing online platforms for various clients.

Experience

2013 - 2016

Alfanar Co., Riyadh, KSA | <https://www.alfanar.com>

Project Manager

- Spearheaded proposal preparations and secured projects worth over 60 million riyals in sectors like E-Business and Networking.
- Developed project charters and led cross-functional teams to ensure alignment with strategic objectives.
- Monitored project progress, providing detailed performance reports to enhance stakeholder transparency and engagement.
- Managed contracts and leveraged tools like SAP and MS Project to optimize project efficiency and effectiveness.

2007 - 2013

Ministry of State for Administrative Development - MSAD, Cairo, Egypt

Project Manager

- Conducted comprehensive project management reviews with contractors to ensure alignment with project objectives.
- Managed and oversaw all aspects of project execution, including scope adherence, budget management, resource allocation, and deliverable tracking.
- Implemented robust monitoring systems to provide regular performance reports to senior management, ensuring projects met strategic goals.
- Successfully handled contract management and stakeholder engagement, maintaining strong relationships and ensuring compliance with project terms.

2005 - 2006

College Business Administrator, Jeddah, KSA

Senior Software Developer

Managed and developed a comprehensive web application for managing various academic and administrative functions, including admissions, fees, and exams.

2004 - 2005

Pyramid Technology - PTnet Co., Cairo, Egypt

Team Leader

- Spearheaded proposal preparations and secured projects worth over 60 million riyals in sectors like E-Business and Networking.
- Developed project charters and led cross-functional teams to ensure alignment with strategic objectives.
- Monitored project progress, providing detailed performance reports to enhance stakeholder transparency and engagement.
- Managed contracts and leveraged tools like SAP and MS Project to optimize project efficiency and effectiveness.
